## 14:00 – 15:15 Session 3

### ESG AND MARINE INSURANCE

Session 3 will consider whether Marine Insurance has a role to play in changing industry behaviour or is it the markets' role to solely provide cover to the existing and future fleet?

- Given the need for all ships put out to sea to have the correct insurances, how can the market respond to the potential of re insurers refusing cover for certain vessel classes and trades?
- Is a Poseidon Principles equivalent in the marine insurance market workable or indeed the right thing to do when ships going to sea need full insurance cover to ensure that claims can be paid and the marine environment restored?
- How does the market contribute to changing behaviour in regard to the reduction GHGs and not simply push the problem elsewhere?
- How is the market coordinating with the wider shipping industry regarding the introduction of new fuels and engines?

*Moderator:* **NICK SHAW** Chief Executive Officer, International Group of P&I Clubs (IG P&I)
